

ADJUST YOUR COMPUTER SYSTEM FOR BEST PERFORMANCE

If you want to adjust your computer to function at what Microsoft calls “best performance”, do the following:

1. Click **Windows + X**.
2. Click on **System**.
3. Click **Advanced system settings**.
4. Under Performance, click Settings.
5. Click *Adjust for best performance*.
6. Finally, click on the box beside *Show thumbnails instead of icons* before clicking OK. (This item must be checked in order to see your individual photos instead of all-the-same icons.)
7. Click **OK**, then **OK** again.
