

## **CHANGE THE APPS THAT SHOW THEIR STATUS ON THE LOCK SCREEN**

You can set one app that shows its detailed status on the Lock Screen and seven additional apps that show a quick status. To change which apps show their status on the Lock Screen, follow these steps:

Open Settings.

1. Click Personalization. All the available personalization settings are shown.
2. Click Lock screen. The lock screen-related settings are shown.
3. Click the app icon shown in the Choose an App to Show Detailed Status section. A list of apps appears.
4. Click to select a new app from the list.
5. In the Choose Apps to Show Quick Status section, click the icon of an app that you want to change. A list of apps appears.
6. In the app list, click the replacement app.
7. Close the Settings window.
