

Change the Mouse Pointer Size and Color

If you want, you can make the mouse pointer bigger and also change its color from white to black. Here's how:

1. Open Settings.
2. Click Ease of Access. The list of available ease of access settings appears.
3. Click Mouse. The available mouse-related settings appear.
4. In the Pointer Size section, click the size that you want to use.
5. In the Pointer Color section, click the color that you want to use.
6. Close Settings.
