

Disable the Task View: another way to reduce the clutter on the Taskbar.

There is a **Task View** button that provides an overview of all your open windows and virtual desktop features. When it is enabled, the Task View button will always appear to the immediate right of the search bar/icon.

This feature is enabled by default. If you'd like to disable it, just right-click on a blank area of the taskbar and deselect the *Show Task View button*.

An old-fashion way to accomplish seeing all your open windows is to press the Alt key together with the Tab key.
