

ESTABLISH A WEBPAGE FAVORITE WITH A KEYBOARD SHORTCUT

How do you establish a Webpage as a Favorite site? Most users venture into the Favorites menu and click Add to Favorites.

There's a faster way:

If you have a Webpage open and active, and want to make it one of your favorites, just use the keyboard shortcut. Here's the keystroke combination for all popular browsers:

Chrome: Ctrl-D

Firefox: Ctrl-D

Edge: Ctrl-D

Opera: Ctrl-D

Safari: Ctrl-D

All five major browsers rely on the same keyboard shortcut for bookmarking the current page.
