

## **PIN WEB PAGES TO THE ALL APPS FOLDER USING INTERNET EXPLORER**

Open Internet Explorer (not Edge). Type the address of the target Website in the address bar (Ctrl + L) at the top of the screen. When the Website has been fully accessed, click on the cog wheel located near the upper right corner of the windows. Now click on *Add site to Apps*.

After closing the browser window, go to the Start button, then the All Apps folder where you will find a tile that represents your favorite site. (Note that the apps are listed alphabetically.) Right-click on it and then *Pin to Start* or *Pin to Taskbar*.
