

## **STARTUP BOOST MAXIMIZES YOUR COMPUTER'S PERFORMANCE**

A relatively new feature of Microsoft's Edge browser is Startup Boost which maximizes your computer's performance by dramatically reducing the time it takes to open the browser.

To turn on Startup Boost:

1. Open Edge.
2. Click on the three dots near the upper right corner of the window.
3. Click on Settings (near the bottom of the list that appears)
4. Click on System and Performance in the left column.
5. The on/off switch for Startup Boost is at the top of the middle column.
6. Click it ON.
