

TURN ON AUTOCOMPLETE IN MICROSOFT EDGE

If you use Edge as your browser, you will want to make sure that your AutoComplete function is turned on. AutoComplete makes suggestions in a pull-down menu as you type in the address bar..

If this feature has been disabled in your Edge browser, you will certainly want to turn it back on. Follow these steps:

1. Select the **More actions (...)** button.
2. Select **Settings > View advanced settings.**
3. Turn on **Save form entries.**
